3. Claims 1-2, and 12-13 are rejected under 35 U.S.C. 102(e) as being Hwang by (US Patent Application Publication 2005/0183045).

As for the claims, Hwang discloses the invention as claimed, including:

A method for selecting a processor for a system and a computer, a processor selection program on said computer, using a description of system requirements and system desires, said method comprising:

(Means for) reading a list of processors and their attributes from a processor attribute table [paragraph 0022, 0040];

(Means for) reading processor requirements from a processor specification list [0041];
